

SAS® University Edition: QuickStart Guide for Amazon Web Services Marketplace

These instructions are for using SAS University Edition from Amazon Web Services (AWS) Marketplace.

Step 1: Sign in to your AWS Marketplace account.

To sign in or create an account, open the [AWS Marketplace](#). If you are new to AWS, see “[Getting Started with AWS](#)” for help.

Note: When creating an account, you must provide credit card information to cover any AWS charges. SAS University Edition has no cost and is eligible for the [AWS free tier](#).

Step 2: Open the SAS University Edition page.

In the AWS Marketplace, open the page for [SAS University Edition](#). This page displays the instances available for the SAS University Edition. You can accept all the default values. Click **Continue**. The Launch on EC2 page for SAS University Edition opens.

Step 3: Add SAS University Edition to your list of software subscriptions.

The Launch on EC2 for SAS University Edition page lists all of the available instance types for the SAS University Edition. On the **1-Click Launch** tab, accept the default value of t2.micro, which qualifies for the free tier. If you select a different instance, you might incur AWS charges. Click **Accept Terms & Launch with 1-Click**. When prompted, click **Continue without a Key Pair**.

A message notifies you that the software is now deploying. Close this window to return to the [Your Software Subscriptions](#) page. Deployment of the software might take several minutes.

Step 4: Start the SAS University Edition.

After deployment completes, the instance of SAS University Edition appears on the [Your Software Subscriptions](#) page. (You might need to refresh this page to see the SAS University Edition instance.)

- Copy the instance ID for the SAS University Edition. An example of an instance ID is `i-d0w7a63b`.
- Click the **Access Software** link for the SAS University Edition instance.
- When prompted, enter `sasdemo` as the user name and paste the instance ID for SAS University Edition as the password.
- When the SAS University Edition: Information Center opens, click **Start SAS Studio**.

Step 5: Stopping or Terminating the SAS University Edition instance.

You manage your SAS University Edition instance from Your Software Subscriptions page.

- Open [Your Software Subscriptions](#) page.
- To stop or terminate SAS University Edition, click **Manage in AWS Console**.
- From the console, select **Actions > Instance State**.
 - Select **Stop** to save the current instance but stop it from running. When prompted, click **Yes, Stop**.
 - Select **Terminate** to delete the instance. No uploaded data persists. When prompted, click **Yes, Terminate**.

Step 6: Restarting SAS University Edition.

To restart a stopped instance of the SAS University Edition, select **Actions** > **Instance State** > **Start** from the AWS console.

To restart SAS University Edition if you terminated an instance, open [Your Software Subscriptions](#) page. Click **Launch more software**. On the Launch on EC2 for SAS University Edition page, accept the default values and click **Launch with 1-Click**.

For more information about the SAS University Edition, see the FAQs and videos at <http://support.sas.com/software/products/university-edition/index.html>.
